**Open Session reconvened at 10:10 am with Chairman Sweitzer, Mr. Dean, Mr. Armstrong, Dr. Ransom, Mr. Little, Mr. Vickery and Mr. Madson in attendance.**

Mr. Little moved to adopt the January 14, 2003 minutes. Mr. Madson seconded. Motion carried.

Mr. Madson moved to adopt the February 5, 2003 minutes. Mr. Dean seconded. Motion carried.

### **Professional Societies and Guests:**

Chairman Sweitzer recognized the designated representative of each professional society and other visitors present.

### **5. Executive Director's Report:**

Mr. Mickler reported on the recent NCEES Board Administrators and Presidents Assembly that he and Mr. Sweitzer attended in Anchorage, Alaska. He relayed that the three topics of discussion he participated in were exam security, tracking of EIT's and LSIT's and ABET credentials. Ms. Ransom asked Mr. Mickler for more information on testing through NCEES.

### **Old Business:**

#### **6.1 Southern Zone Meeting – April 27-29, 2006 in Georgia:**

Mr. Little and Mr. Mickler have attempted to talk with the NCEES representative who handles the arrangements for the Southern Zone meeting, but that person is busy with the current year's meeting arrangements now. They will continue to establish dialogue. Mr. Dean asked if there was a schedule of milestones and deadline dates to follow.

#### **6.2 Southern Zone Meeting – March 20-23, 2003 in Charleston:**

Mr. Mickler reported that since the January, 2003 Board meeting when reported that only two Board members would be funded to attend the Southern Zone Meeting in Charleston, now there are no funds available for any out-of-state travel. Mr. Sweitzer asked if the budget had been reduced or if money has been reallocated. Mr. Dean asked if the Board members could pay their own way and still attend. He further stated that he thought it was really bad that the Board members and staff could not attend because attending allows Georgia to vote on issues that are discussed and networking with the other states' representatives lends ideas.

#### **6.3 NCEES Annual Conference – August 14-17, 2003 in Baltimore, MD:**

Mr. Mickler reported that the same budget cuts would probably effect the Board's attendance at this meeting as well.

- ? The discussion regarding budget led to Mr. Little asking if the Board meetings that have been set up for Brasstown in May and Douglas in November would still be allowed. Mr. Mickler will find out and let the Board know. Mr. Madson moved to have Mr. Mickler e-mail Secretary of State Cathy Cox to express the Board's displeasure and concern about the Board not being able to attend the NCEES meetings and the Board meetings possibly not being held in alternate cities than Atlanta or Macon. Mr. Little seconded. Motion carried.

#### **6.4 Review of Quality Based Selections (Mini-Brooks Act):**

Ajay Gohil, Assistant Attorney General discussed offering bids for public projects. Mr. Little commented that the Mini-Brooks Act was enacted in the 1980's or early 1990's. At the time, there was some discussion about ethics of bidding and only accepting a bid in areas of competence.

#### **6.5 Electronic Stamping for State Agency:**

At the January meeting, Mr. Earl Ferguson requested that the Board consider an exemption of electronic signatures on plans submitted to the Department of Community Affairs under the Industrialized program. Mr. Gohil recommended not to exempt, since the general provisions of the statute allows for exemptions to be requested on an individual basis per project.

#### **New Business:**

#### **7.1 Report on Board Rules Review Committee:**

Mr. Sweitzer reported that the Board Rules Review Committee met and discussed the rules that the Board has referred to them. He stated that the committee determined that the existing law, O.C.G.A. § 43-15-2(6), defining "land surveying" inhibits the committee from changing the hydrology rule; therefore, the legislature is now working on changing the law. Mr. Armstrong moved to send the legislature suggested language as follows:

Amend 43-15-2(6) as follows (underlines are additions and ~~strikethroughs~~ are deletes to current law):

(D) The design, platting and layout, incidental to subdivisions of any tract of land by a land surveyor, of: ~~grading, erosion control, storm drainage pipes and culverts, and water distribution or gravity sanitary collection sewer extensions therein, provided that the design and installation of such water distribution or gravity sanitary sewer extensions shall conform to local ordinances and regulations and shall be subjected to the review and approval of the local government or its engineer;~~

1. Grading plans and site plans

2. Erosion and sediment control plans, including detention ponds, provided that no impoundment shall be designed on a live (perennial) stream, and that it:
  - a. contain no more than 5 acre-feet of water storage at maximum pool (top of dam), and be no more than 10 feet in height for a dry storage pool, or
  - b. contain no more than 3 acre-feet of water storage at maximum pool (top of dam), if the height is more than 10 feet but less than 13 feet for a dry storage pond, or
  - c. be more than 6 feet in height for a permanent (wet) storage pond.
3. Storm water management plans and facilities, including hydrologic studies, and temporary sediment ponds, provided that the contributing drainage area shall not be larger than 100 acres.
4. Extension of existing water distribution piping and gravity sewers (8 inch diameter or smaller), provided that off site length shall not exceed 1000 feet, the design and construction of which shall conform to the local government ordinances and regulations and such extensions shall be subjected to the review and approval of local government which has been delegated approval authority by the Georgia Environmental Protection Division.

Mr. Vickery seconded. Voting by show of hands, motion carried with Mr. Madson opposed. Following input from the public and representatives from the professional societies, Mr. Madson moved to amend to allow for more review before it is sent to the legislature. Motion died for lack of second.

Mr. Madson expressed concern that the agenda of the Rules Review Committee did not include all of the rules that the Board referred to them to study. Mr. Madson moved to add the following rules to the Rules Review Committee agenda:

180-6-.03, Rules of Practice  
180-7-.02, Land Titles and Location  
180-7-.03, Horizontal Measurements  
180-7-.07, Maps and Plats  
180-12-.02, Sealing of Documents  
180-1-.02, Hydrology

Mr. Dean seconded. Motion carried.

? Mr. Madson left the meeting at 11:30 am.
